Among the programs that your gifts will support:

### ***Educators Forum***

A three-year program of monthly meetings, building bridges of understanding among teachers and principals of different backgrounds, so that they can in turn nurture interreligious and intercultural relationships among their students.

### ***Family Forum***

A similar program that works intergenerationally, with families.

### ***Text Translation Project***

Many core religious and cultural writings in Arabic are not available in Hebrew, and vice versa. This project seeks to foster understanding by making these important texts accessible across the language divide.

### ***Modern Translation of the Qur'an***

Ghassan Manasra and his father have undertaken this project to make the wisdom of the sacred text available in a modern context.
